DURBIN WARD, of Warren.

For Comptroler of the Treasury, SAMUEL. W. GILSON, Mahming. For Board of Publick Works, RICHARD H. HENDRIKSON, Butler Our Proclamation.

Whereas, the primitive forms, and prin ciples of our National Government are being outraged-fraud, peculation, and corruption are running riot in the land; and political parties are in a state of disruption and anarchy; and

Whereas, the American order have re solved to bring out no ticket for the October elections, but to leave the contest single handed between the Republican and Democratic parties, exhorting all freemen, to exercise their political franchises with a view to the ultimate restoration of our Government to the principles, precedents, and doctrines laid down by our Revolutionary Fathers; Therefore, we, by and with the consent of our American friends of the 11th Congressional District, issue the following proclamation:

1st. That we hold the Union, and the Constitution of these United States to be paramount to all other political considera-

2nd. That we recognize (as the basis of of our institutions) the right of the majority of American citizens, whether native born or naturalized, to rule in all matters pertaining to civil government- the townships, the county, the State, the Territory, and the Congress of the United States each in its own department, subject to the constitution and organic laws of the land.

31. We hold it to be not only the right, but the imperative duty of our Congress gainst foreign cupidity, and competition, (call it Protective Tariff, if you please,) and that as a principal means to our restoration, the Congress of the United States having the power, are in duty bound to purge the ballot box by preventing the flooding of our country with foreign pail . pers and criminals, and so amending our naturalization laws as to prevent fraud and imposition.

We are opposed to the Kansas outrages as maintained and defended by the Domocratic party and present Administration, and to the further extension of slavery in free territories in all its forms.

We repudiate and condemn the extravagance, the frauds and corruption that loom up in every department of the general gov. eroment, and we therefore, pledge ourselves to support the doctrines hitherto ad- ans in 1850: vocated by the Lancaster American Gazette, as above indicated-to oppose fraud, ignoring former party associations.

thereof, the suprems consideration of the freemen of the Nation. JAREST, athe New York Lung InPIRMARY.—My connection for the next eight years
with the above institution, as Chief Physician, and a
lawlye years' course of study devoted to the Care of
Pathonary Consumption and its kindsed diseases, tosenter with my unrivalled opportunities and advantage of pathological research—alded not a little by a
perfect system of Medical Inhelation—has enabled me
to arrive at a decisive, direct, and accessful course of
treatment forthe positive and radical cure of all discassed the Treat, Lunguand Air Passages. By inhallon, the vaper and curvice properties of wedicines are directly hid rested to the diseased organism into
the integument. I do not advise the use of Medical
Inhalition of any kind, to the exclusion of general
vant by the proper management of those fearful and
offer intal diseases, yet, doesn it vary accessary that
cash patient should have the benefit of both general
rad local treatment. The success of my treatment is
the above diseases, and the high character of the
Institution ever which i have so long had the honer to mongy.
